EDUCATION

Colorado School of Mines

Bachelor of Science in Computer Science

- 3.9 GPA

Golden, CO

Expected Graduation: May 2026

EXPERIENCE

iOS Developer

Climbto350

June 2023 – present

Scottsdale, AZ

- Developed a REST API using Python FastAPI that communicates with a SQL Server database
- Used the API to develop a SwiftUI App for a local small business and existing website climbto350.com
- Deployed to the App Store in July 2024
- Gained 700+ downloads, a 5 star rating, and produced over \$4000 in revenue within its first month on the App Store

Web Developer

American Eagle Stucco

May 2024 – Aug 2024

Fountain Hills, AZ

- Developed a website from scratch using Python Flask, HTML, CSS, and JavaScript
- Traveled to construction sites all around Arizona with team members to familiarize myself with the company and take pictures for the website
- Launched on an Ubuntu server in July 2024

Assistant Manager

Subway

Jan 2023 – Aug 2024

Scottsdale, AZ

- Worked in a high pace environment and built on my customer service, teamwork, and leadership skills
- Managed my time and others time wisely to ensure that all work got done right and on time

Mexico Mission Trip (1Mission) – Volunteer

Scottsdale Bible Church

June 23 – June 27, 2022

Scottsdale, AZ

- Helped build two houses for those in need in Puerto Peñasco, Mexico
- Worked efficiently in a team by taking initiative and communicating with others

Refugee Serving Event – Volunteer

Canyon Point Apts

Oct 2021 – May 2022

Phoenix, AZ

- Volunteered to help assist local refugee children
- Helped organize events to support the children in various ways

PROJECTS

Expenses iOS App | *Swift, SwiftUI, XCode*

May 2023 – Aug 2023

- Application for users to add and track their expenses/incomes in categories
- Allows users to search through all past transactions
- Saves the users data by storing it in the documents directory
- Ensured that the application is fully accessible

BetterRest iOS App | *Python, Flask, SQLite, HTML/CSS*

June 2023 – Aug 2023

- Presents users with a form to insert their wake up time, desired amount of sleep, and daily coffee intake
- Uses a CoreML tabular regression model to predict recommended bedtime based on these inputs

Moonshot IOS App | *Swift, SwiftUI, XCode*

April 2023 – May 2023

- Application for users to learn about all the missions to the moon
- Imported and decoded JSON files containing the information
