EDUCATION

Colorado School of Mines — Golden, CO
Bachelor of Science in Computer Science — *Expected Graduation: May 2026*
- 3.9 GPA

EXPERIENCE

iOS Developer — June 2023 – present
Climbto350 — *Scottsdale, AZ*
- Developed a REST API using Python FastAPI that communicates with a SQL Server
- Used the API to develop a SwiftUI App for a local small business and existing website climbto350.com
- Deployed to the App Store in July 2024
- Gained 700+ downloads, an overall 5 star rating, and produced over $4000 in revenue within its first month on the App Store

Web Developer intern — May 2024 – Aug 2024
American Eagle Stucco — *Scottsdale, AZ*
- Developed a website from scratch using Python Flask, HTML, CSS, and JavaScript
- Traveled to construction sites all around Arizona to take pictures for the website
- Launched on an Ubuntu server in July 2024

Assistant Manager — Jan 2023 – Aug 2024
Subway — *Scottsdale, AZ*
- Worked in a high pace environment and built on my customer service, teamwork, and leadership skills
- Managed my time and others time wisely to ensure that all work got done right and on time

Mexico Mission Trip (1Mission) – Volunteer — June 23 – June 27, 2022
Scottsdale Bible Church — *Scottsdale, AZ*
- Helped build two houses for those in need in Puerto Peñasco, Mexico
- Worked efficiently in a team by taking initiative and communicating with others

Refugee Serving Event – Volunteer — Oct 2021 – May 2022
Canyon Point Apts — *Phoenix, AZ*
- Volunteered to help assist local refugee children
- Helped organize events to support the children in various ways

PROJECTS

Expenses IOS App | *Swift, SwiftUI, XCode* — May 2023 – Aug 2023
- Application for users to add and track their expenses/incomes in categories
- Allows users to search through all past transactions
- Saves the users data by storing it in the documents directory
- Ensured that the application is fully accessible

BetterRest iOS App | *Python, Flask, SQLite, HTML/CSS* — June 2023 – Aug 2023
- Presents users with a form to insert their wake up time, desired amount of sleep, and daily coffee intake
- Uses a CoreML tabular regression model to predict recommended bedtime based on these inputs

Moonshot IOS App | *Swift, SwiftUI, XCode* — April 2023 – May 2023
- Application for users to learn about all the missions to the moon
- Imported and decoded JSON files containing the information
